## AN EXCELLENT NETWORK THAT COMBINES EXPERTISE WITH SPECIALISED COMPETENCIES

In March 2014 the leading organizations from the healthcare sector, among them the three largest Saxon hospitals – including the university hospitals – the Saxon university cardiology centres, stakeholders from outpatient and inpatient care, the largest health insurance in Saxony as well as company representatives from the Saxon healthcare region, agreed to found HEALTHY SAXONY e. V., a non-profit association, with the aim of improving the exchange of experiences and cooperation within the healthcare sector.

If you are interested in joining HEALTHY SAXONY e. V., please do not hesitate to contact us. We will gladly answer any question you might have about the membership.

# INNOVATION

“Together with you, we want to develop new ideas, accelerate their implementation and think about the future of the healthcare sector in Saxony.”

Prof. Dr. med. Wolfgang E. Fleig

Chief Medical Director, University Hospital Leipzig

## EXISTING KNOWLEDGE LINKING TO NEW ONES

The healthcare economy in Saxony comprises 80 hospitals, including three maximum care hospitals, two university cardiology centres and over 12,000 companies operating in Saxony's healthcare sector. It is also important to consider the outstanding research institutions. This results in about 290,000 people working in the sector. We need to recognize this potential and use it. Let us address major issues together. Let us talk about fundamental changes in the role and structure of healthcare, about diversity in cross-sectoral cooperation, about changing and fostering the development of our region.

HEALTHY SAXONY e.V. constitutes the face of Saxony's healthcare economy: a platform for exchange, interconnection and knowledge transfer. We, as HEALTHY SAXONY's chairmen, invite you to shape the future of Saxony's healthcare sector together.
